

Respect Policy

Little Professors Nursery believes that every person using our facilities should be treated with respect, care and consideration. The premises and our neighbours should be treated likewise.

Each of us, whether a member of staff, other professional partner, parent/carer, child or visitor has a responsibility to ensure that this belief is upheld. In doing this we can ensure that the Nursery environment is a safe, happy and enjoyable experience for all its users.

We want to create a friendly environment where everyone feels welcome and valued. To ensure this we will:-

- Be positive and friendly with others
- Be considerate and honest with others
- Listen to others contributions and treat them equally
- Respect confidentiality
- Share responsibilities
- Use appropriate language
- Refrain from aggressive or bullying behaviour
- Take care of equipment and furniture

We understand we are all human and sometimes we do not 'get it right' but mistakes are an opportunity to learn. We want to support each other in the journey of making an excellent Nursery for us all to enjoy and use.

If we can all be kind, give hope and respect to each other, we will achieve great things!
